

WINTER 2005 • CREDIT — EDUCATION — FOR THE FUTURE

Men Make The State

Picking up a copy of the Moose Jaw Times the other day, the writer's attention was drawn to an article entitled "Men Make Cities" which opened by quoting the following inspirational lines of an unknown poet taken from the September issue of The Rotarian:

Cities are what men make them;
What men demand they shall be;
Slothful, sloven, and sleeping,
Progressive, beautiful, free.
If the hearts of the builders are noble,
In one with the day and the need,
They will build into grandeur and greatness,
— For so it was decreed.

These lines, it is stated, were inspired by the achievement of Atchison, Kansas, as told by Ed. W. Howe, editor of the Atchison Daily Globe. Atchison is one of the smaller cities, but in twelve years it has evolved from a bankrupt, tax-broke city,—"slothful, sloven and sleeping,"—into one that is "progressive, beautiful, free," with its bonded debt cut 70 per cent, and even while this fine record was being made its tax rate was reduced by 35 per cent.

"How was it done? In 1920 a group of citizens, noting the seriousness of the situation, started a movement to save the city, a new idea took hold of the administration, expenses were cut, and plans formulated to enable the taxpayers to handle the load and reduce the bonded debt and the overhead, and the creditable record was not interrupted through three years of the hardest times ever known, largely because lost courage and confidence was restored.

The Rotarian magazine tells the story in an editorial challenge to Rotarians in every city to be up and doing for the welfare of their home town,—to study its problems and to act. The Moose Jaw Times applies it directly to its own city and declares the challenge comes at this time not only to Rotarians but to every member of every service club of Moose Jaw.

The writer of this column in passing the story along would make bold to still further enlarge the field of its application from city or town to the citizenship of every community, large or small, because it is just as true that men,—and women,—make rural communities and little villages as it is that they make cities. It is also true that in these days our rural communities, hamlets and villages are confronted with problems, which, considering their population and resources, are just as heavy and serious as those of the larger cities,—perhaps even more so.

Furthermore, because of the very nature and extent of the world-wide depression which has developed, all communities, large and small, find themselves much in the same position. One cannot in their emergency turn to another because all are adversely affected and while the willingness to assist may be there, the ability to do so is lacking. So communities are thrown back on their resources to a greater extent than formerly.

Again, this has resulted in much purely voluntary work by individuals and organizations being restricted, leading to both individuals and communities turning to and relying upon the State to take over and assume their problems. The net result is a weakening of the morale of the individual, a loss of courage and confidence, the development of habits of slothfulness, and a deterioration of initiative enterprise. Instead of men adhering to the truth that they make cities and nations, thousands are adopting the false theory that cities and nations make men, and that, instead of it being the duty and responsibility of men to order their lives and make their communities, it is the duty and responsibility of the State to order the lives and control the actions and destinies of the individual, thus reversing the order of the citizens controlling and directing the State.

Observant men and women are more and more coming to the view that the time has arrived to call a halt to this increasing reliance upon the State, and to renewed belief in the truth that, like the citizens of Atchison, Kansas, they must save themselves and their city by action on their own part; that instead of allowing their difficulties and problems to swamp and overcome them, they must overcome their problems and surmount their difficulties. It can be done. It has been done time without number by individuals and communities in the past.

Indeed, if it is not done both the individual and the community, large or small, faces ultimate disaster. The individual will find himself submerged and his individuality largely gone, while the community will end up in complete bankruptcy and the loss of its local freedom and autonomy.

On the other hand, if the men,—and women,—of a community, be it a small village or a large city, better themselves, face and study their problems, and proceed to grapple with them one by one, they will be surprised how much they can accomplish. It will mean the abandonment of existing policies of drifting with the adverse tides. It will mean the dropping off of this expenditure and that; it will mean the application of the most rigid economy in all public administration; it will involve a more active participation by the individual citizen in effecting community savings; it will necessitate community sacrifices for a time just as thousands of individuals have had to make individual sacrifices. But it will mean ultimate success both for the community and the individuals who constitute and make the community.

In a word, it means a return to the proper and sound conception,—that men make cities, not cities make men. And in using the term cities the application is to all organized communities whether rural or urban, large or small.

Dairy For Prince Albert

Believing Prince Albert is headed for better times, F. R. Glass, of Kerrobert, announced his plans to establish a dairy there for the retail distribution of pasteurized milk and cream. He has acquired 1,300 acres near the city and is building a barn according to an Ottawa bulletin. The house 40 Holstein cattle he intends to bring from Kerrobert, where he now operates a dairy.

Opossums are becoming so numerous in New Zealand that they are a menace.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious.

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 88 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief.

Get it at your drug or general store; put up only by The T. Millburn Co., Limited, Toronto, Ont.

British Railway Regulation

No-Smoking Order in Compartments To Be Enforced

In future all passenger coaches on the London, Midland and Scottish Railway will bear a distinctive label, "smoking" or non-smoking." About 10,000 vehicles, with a seating capacity of more than 1,000,000 will have to be dealt with. Probably a year will elapse before the change-over is complete.

"We have had many complaints," said an official, "about people smoking in non-smoking compartments. They take the view that as smoking is not definitely forbidden they may smoke if they wish to do so. When the new labels are affixed on one will be allowed to smoke in a non-smoking compartment, even if other passengers say they have no objection. Smoking is allowed in 75 per cent. of the coaches and it is not proposed to alter that proportion."

Other railway lines in the United Kingdom have carriages labelled in various ways, meant to indicate they are either for smokers or non-smokers.

CAST OFF UGLY FAT

Woman Loses 28 lbs. in 3 Months

"Three months ago," a woman writes, "I was persuaded to try Kruschen Salts to reduce my weight, which was 222 lbs. I had tried other things, but all to no avail. Now I know that Kruschen Salts are different. In three weeks I lost 5 lbs., and I felt five years younger. I really must say I feel a different woman. I have now lost 28 lbs. to date." — (Mrs.) S.G.B.

If you are overweight take one-half teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning. There will be no rapid or alarming loss of weight, but just a steady decrease of that flabby fat which is as unhealthy as it is unsightly. Kruschen is a scientific blend of six mineral salts found in the waters of those European spas that have been used by generations of overcast people to reduce weight.

Rising Tide Of Fascism

Warning Is Sounded By Secretary Of Workers' League

Warning against the "rising tide of Fascism," as exemplified by the Blue Shirts of Canada, was sounded by J. C. Wilson, of Winnipeg, National Secretary of the Workers' League, at an open meeting of returned soldiers' M.W. Wilson. On "I understand the slogan of the Blue Shirts is 'Join us and get a job,' but that does not amount to a hill of beans," Mr. Wilson said. "In Winnipeg we formed the Old Contemptibles and had the same slogan. The only job offered us was police duty during trouble, a job now filled by 62 members of the Canadian Legion.

"There is no job for them except as storm troops for a Fascist government. That is their role, the same role as Fascists in Vancouver, strong-arm squad of Winnipeg, and Steel Helmets of Montreal.

"The time has come when you, as your economic needs, as the only effective weapon to combat the rising tide of Fascism and possible war in six months."

Pains After Eating? Try This!

Pains after eating are generally due to an excess of acid in the stomach that forms gas and causes belching, heart burn, bloating, sour stomach, indigestion. Bismarck Magnesia taken after meals will give such quick and pleasing relief you will be surprised. Any druggist will tell you ordinary Bismarck Magnesia is fine for sour acid stomach conditions. It should be in every home. It works.

Tomb Of Viking Chieftain

Discover Grave Of Warrior Buried 1,000 Years Ago

The tomb of a Viking chieftain, buried more than 1,000 years ago, was recently found at Laangra in central Sweden. The find clearly showed the warrior was of high rank and furnished an interesting example of the burying customs of his day. He had been interred with full armor and with a fine sword, evidently made in the south of England.

The sword hilt was decorated with silver ornaments, on one of which some magic runes had been engraved.

Claims Fastest Plane

That his plane is faster than any other passenger-carrying type is the claim of the inventor of a new machine in Italy, having the body in a cylindrical enclosure, through which currents of air pass to supply the propelling power.

Scotland's potato crop this year was so large that the digging gave work to hundreds of unemployed.

Powerful Flashlight FREE for POKER HANDS!

ONLY Four complete sets of poker hands will secure you this handy flashlight (complete with batteries). Useful in the car or in the house and but one of the many valuable gifts given in exchange for Turret Poker Hands.

Sun ripened melon... extra saucy... rich aroma... extra saucy... rich flavour. That's the Quality you want in cigarette tobacco and that's the Quality you get in every package of Turret Fine Cut. And there's genuine economy too. You can roll at least 50 cigarettes from a 20¢ package.

It pays to "Roll Your Own" with **TURRET FINE CUT CIGARETTE TOBACCO** SAVE THE POKER HANDS!

Had Wet Landing

Passenger On Amphibian Plane Stepped Out Into Water

The pilot of a big amphibian plane coming toward New York one night recently found himself in a nice fog which he thought would be pretty pure later. According to instructions, he landed at an outlying city and suggested that his passengers continue by rail. They all did, except one gentleman who said he was in a mighty hurry and would take a chance if the plane was going on. The pilot was going on, and let him stay. The fog got worse, but the passenger was untroubled. Two or three times the pilot and co-pilot looked back and found him deep in a magazine. He read right on until the plane had come down and stepped. Then, to the pilot's and the co-pilot's horror, he took up his suitcase, opened the door, and jumped nimbly out. It would have been all right but for the fact that, in view of the weather, the pilot had brought the amphibian down on the water instead of the land. They fished the gentleman out and dried him off and he hurried to town.—New Yorker.

Trying Something New

Rolling Across Atlantic In "Gyroboat" Is Plan Of Two Italians

Two Italians may attempt to cross the Atlantic in a barrel-like craft propelled solely by rolling. They are Captain M. Caminetti and his mechanic, Signor Rametta. The vessel, called a "Gyroboat," is a kind of buoy in the shape of a barrel with a revolving cable which gives it its speed. It is completely closed and will hold several people. According to word from Palermo the inventors completed their first trial by crossing the Straits of Messina in less than an hour. They made their "ship" roll simply by their own movements inside the barrel. The inventors intend to propel their vessel down the coast to Catania and there to stay while they perfect it. They claim they will be able to cross the Atlantic in it "at stupendous speed."

Forsakes Northern Country

Trapper Has Lived In Sub-Arctic For Many Years

The far north country is a good place for a man with a family, who is "getting up" in years, to get out of. This at least is the opinion of T. W. "Flynn" Harris, and he should know, for he's been wandering around up there since 1881.

Trader, trapper, North West Mounted Policeman, wood-chopper and Indian Agent, for 20 years, "Flynn" has had his home in the sub-Arctic. Now he is in Edmonton, retired by the government from his position as Indian Agent, and he's going to Cold Lake to settle down.

Belgium has only 155,000 unemployed.

South Shields, England, is building 142 houses for the aged.

Investigated Northern Lights

Scientists Have Spent Fifteen Months At Fort Rae

Aurora borealis flash across the northern sky some 60 miles above the earth, according to calculations made by members of the British polar year expedition who arrived at Edmonton by aeroplane after 15 months spent at Fort Rae, North West Territories, studying weather conditions in the far north.

Five members of the party, A. Stephenson, who was formerly with the Wilkins expedition in Greenland, P. A. Sheperd, R. Morgans, W. A. Grimstead and J. E. Kennedy arrived in a MacKenzie Airways aeroplane piloted by Matt Berry. Dr. J. M. Stagg, leader of the expedition, returned by river boat with the valuable instruments used in investigations.

Results of their observations will not be revealed until the voluminous data on meteorology, terrestrial magnetism, aurora and atmospheric electricity as analyzed after their return to England, the scientists stated.

"We simply made the observations and collected the data," Mr. Grimstead explained. "The results of our work will come out later."

In all, 4,000 double photographs of the northern lights were taken by means of cameras on either end of a telegraphic line placed 20 miles apart. Cameras and instruments were focused on a star and the photographs taken instantaneously. Thus by means of triangulation the distance and position of the northern lights could be estimated.

A Rare Spectacle

Aunt Of Cavalry Subaltern Liked Field Of Polo

The young cavalry subaltern was showing an elderly aunt round the barracks. The old lady became confused by many references to military technicalities, but she gamely determined to appear to take an appreciative interest in everything shown to her. "And that," said the subaltern, pointing to the distant landscape, "is our polo field." "Ah, yes," said the old lady, peering through her glasses. "I often think there's no more beautiful sight than a field of waving polo." — Sporting and Dramatic News, London.

CREAMED CELERY AND GREEN PEPPER

One and half cups celery (cut in one-inch pieces); 1 green pepper; 3 tablespoons butter; 3 tablespoons flour; ½ teaspoon salt; ½ teaspoon pepper; ½ cup evaporated milk; ½ cup water; 6 slices toast.

Cook celery until tender. Drain and mix with sliced green pepper. Mix butter, flour, salt and pepper and seasonings. Blend thoroughly. Add gradually evaporated milk and water, stirring constantly until mixture thickens. Cover and cook ten minutes longer in double boiler, stirring occasionally. Add celery and green pepper. Serve on toast if desired. Serves six.

A Profitable Proposition

One rural subscriber who was renewing his subscription the other day to the Pictou, Nova Scotia Advocate, pointed out that he would not miss one issue of The Advocate henceforth as a result of a recent experience. "Why," said he, "if I hadn't been getting your paper I'd have missed a sale the other day at which I made several dollars on the purchase of a cow. I made enough to pay for the paper for two or three years in the one deal."

Better Conditions Due To General Upswing

Improved Business In Canada N. Credited Wholly To N.R.A.

Figures issued by the Dominion Bureau of Statistics indicate business conditions in Canada have progressively improved since March of this year, before the National Recovery Act was passed in the United States.

Although officials of the Canadian Manufacturers' Association would not express an opinion as to whether the increase in Canada's export trade as reported from the Department of National Revenue at Ottawa, was due to influence of the N.R.A., Dominion statistics indicate it was not a major influence.

Physical volume of business, industrial production, manufacturing in the Dominion, along with export trade started on an upward trend in March, improving steadily in following months. Canada's trade "low" was reached in January-February.

Although some credit is given the National Recovery Act by manufacturers at Toronto, for improved conditions, owing to the improvement in conditions in America on Canadian trade, it is considered improvement is principally due to a general upswing in world conditions.

More Than One China

Not Counting Manchuria Writer States There Are At Least Five

O. M. Green in an article in the Nineteenth Century and After says: everyone returning from the Far East is familiar with the fatuous question, "Well, and when is China going to settle down?" The only possible answer is, "Which China do you mean?" Not counting Manchuria, there are at least five Chinas—Canton in the South, Nanking in the Centre; the North (in a generally fluid state very difficult to define); the huge western province of Szechuan and the Communists.

A solution of bicarbonate of soda will make an excellent white ink.

Use ST. CHARLES MILK

and your pies, puddings and desserts will have a new delicious melt-in-your-mouth flavor. Try it for creaming soups and for vegetables, in fact whenever a recipe calls for milk. It makes all good cooking BETTER!

List of Special Prize Winners to be published next week.

Heard Around Town

R. Greene and wife, and Miss Mary Greene, of Sedalia; also A. W. Shaul, of Garden Plains were Sunday visitors at the Chapman home.

Mr and Mrs. L. S. Dawson, of Wildwood, are rejoicing over the arrival of a son.

Mrs. Flater is spending a few days at the home of her mother.

Mrs. F. S. Judson, of Cappon, who has been ill for some time is staying with Mrs. K. Myhre for a week.

Mr. McTavish, of Leslieville, Alberta, was a Chinook visitor last week.

Mrs. Geo. McIntosh and family visited at the home of Mr. and Mrs. Jas. Young for two days prior to leaving for their new home at Leslieville.

C. Neff, of Hanna, and J. Culp made a trip to Medicine Hat last week and report the roads in good shape.

W. I. Meeting

The regular monthly meeting of Chinook W. I. will be held, on Wed. Oct. 4, at the home of Mrs. J. W. Lawrence, at 2:30 p.m. A program on Legislation with I. Proudfoot, being the main speaker will be held. Roll call will be, to name a Canadian law that has been of benefit to women. Visitors are welcome.

Rally Day

Rally Day service was held at the United Church on Sunday, Sept. 24. A good program was arranged by the superintendent, A. V. Youell, and Rev. Woollatt gave an address which was much appreciated.

Heathdale Happenings

W. E. Anderson, and wife returned from Edmonton on Friday.

On Sunday, Oct. 8 there will be a Thanksgiving Service in stead of the usual harvest festival at this time of year.

increasing prosperity in Canada and the United States is seen in the early arrival in the Dominion of United States Christmas shoppers. They are particularly busy in the Maritimes where the demand is especially heavy.

Edward C. Carter, of New York, traveller and publicist, has been chosen to fill the newly-created post of secretary-general of the Institute of Pacific Relations which has just completed its fifth biennial conference at the Banff Springs Hotel.

Eleven happy boys took the eleventh annual "On to Alaska" tour this year under the leadership of George E. Buchanan, of Detroit. Their trip included a stop at the Banff Springs Hotel where the boys stayed until they entrained for Lake Louise.

Traffic earnings of the Canadian railways for July show an aggregate gain of nearly a million dollars as compared with July, 1932, the best showing in many months on similar comparisons. Gross earnings of the Canadian Pacific account for \$172,000 of this gain during the month.

"He got you that time," said Mrs. Montagu Norman to the governor of the Bank of England, when they landed recently at Quebec from Canadian Pacific liner, Duchess of Athol, on their way to Bar Harbor, Maine. The purpose of the visit is a mystery, but even a holiday being admitted by the distinguished visitor.

John Nelson, president of Rotary International, sailed recently by Empress of Britain on his way to Lausanne where the second European regional conference of the world-wide organization was held this month. He stated that Rotary had 150,000 members in 200 clubs.

"If from the conferences, speeches and exhibitions at the World's Grain Exhibition at Regina we can derive even one suggestion of importance to agriculturists, the show will be voted a success," said E. S. McTory, manager, United Grain Growers office in Calgary, in a recent address at the Palliser Hotel in this city.
